

Condensate Pumps for Steam Heating Systems

High Capacity Shipco brand Condensate Pumps With Steel Tanks

Durable condensate unit with steel receiver for pumping water temperatures up to 200°F.

- 3/16" thick steel receiver provides years of service. Units are floor-mounted style with tank sizes ranging from 15 gallons up to 235 gallons.
- Available in either simplex (one pump and motor) or duplex (two pumps and motors) configurations. Order water sight glass assemblies and thermometers separately.
- Pump motors are 3500 rpm in either 115/230V single phase or 208-230/460 three phase.
