Sloan Manual Flush Valves

Royal & Regal Manually Operated Flush Valves for Toilets and Urinals

**Premium Royal vs. Regal XL Models**

The Royal models are premium flush valves: Dual-filtered bypass flush diaphragms and free-spinning vandal-resistant stop valve supply covers. The Royal models also have a High back pressure Permex vacuum breaker flush connection. Other premium components throughout the Royal models means less repair!

</table>
More Repair Parts for Sloan Flush Valves

Vacuum Breaker Assemblies

The "standard" V-500 vacuum breaker assemblies were provided with all Sloan "Royal" and "Regal" flush valves up to 1998. In January of 1998 Sloan began providing the high performance premium V-600 vacuum breaker assemblies on their "Royal" flush valves, while keeping the standard V-500 vacuum breaker on the more economically priced "Regal" model of flush valve.

V-600 vacuum breaker assemblies utilize vacuum breakers made from "Permex." This material better handles chlorine and ammonia, along with the higher back pressure from low consumption fixtures.

Vacuum Breaker for "Old" Valves

V-101-A, Repair Kit to convert old style (pre-1971) V100 vacuum breaker into a code compliant V-500 vacuum breaker: SO1325
**Sloan Battery Powered Automatic Flush Valves**

### G2 Optima Automatic, Battery Powered Flush Valves

**G2 Optima Plus Toilet Flush Valves**

These new G2 Sloan Optima Plus sensor operated toilet flush valves run for years on one set of 4 "AA" batteries.
- Batteries can be changed without turning off the water — 8 second arming delay.
- Courtesy flush override button allows for manual flushing; Range adjustment control.
- Select from 3.5, 1.6 or 1.28 GPF.
- Sentinel flush once every 24-hours.
- 1½" vacuum breaker tailpiece.
- 1” pipe water supply connection.

**G2 Optima Plus Urinal Flush Valves**

These new G2 Sloan Optima Plus sensor operated urinal flush valves run for years on one set of 4 "AA" batteries.
- Batteries can be changed without turning off the water — 8 second arming delay.
- Range adjustment control for eliminating false flushing and courtesy flush button.
- Select from 1.5, 1.0 or 0.5 gallons per flush; Sentinel flush every 24-hours.
- 1¼" or ¾" vacuum breaker tailpiece.
- ¾” pipe water supply connection.

- EBV-22, Disposable strap wrench | SO1116F
Sloan AC Electric Automatic Flush Valves

AC Electrical Operated Flush Valves for TOILETS and URINALS

**Toilet Flush Valves**

Select from 3.5 gallons per flush and 1.6 gpf Royal models.
- 1½" bottom or back connection (for concealed flush valve) to top or back supply of toilet.
- 1" pipe supply line.
- Self-Adaptive Infrared Sensor with Indicator Light
- User friendly three (3) second Flush Delay
- Courtesy Flush Override Button
- Chrome Plated Wall Cover Plate (for 2-gang Electrical Box) with Vandal Resistant Screws

**Urinal Flush Valves**

Select from 1.5, 1.0 and 0.5 gallons per flush (gpf) Royal models.
- 1¼” (Model 180) or ¾” (Model 186) vacuum breaker tailpiece.
- 1” pipe supply line.
- EL-1500 Self-Adaptive Infrared Sensor with Indicator Light
- Non-Hold Open Integral Solenoid Operator
- Chrome Plated Wall Cover Plate (for 2-gang Electrical Box) with Vandal Resistant Screws
- 1” I.P.S. Screwdriver Bak-Chek™ Angle Stop
- Free Spinning Vandal Resistant Stop Cap
- Adjustable Tailpiece

Sloan Tailpieces and Pedal Valve Repair Kit

The Tailpiece is the connection between the Valve Body and the Control Stop. Sloan Adjustable and Ground Joint Tailpieces are threaded into the Valve Body at the factory. Sloan Tailpieces are available in a variety of lengths to accommodate installation rough-in errors and unique installation requirements.

H-551-A Tailpieces and Repair Parts

- The majority of flush valves supplied by Sloan since 1964 feature the H-551-A Adjustable Tailpiece. The valve Tailpiece connects to the Control Stop with a sliding O-ring seal.
- The H-551-A Adjustable Tailpiece standard length is 2-1/16". Designed for a standard flush valve installation where the distance between the centerline of the valve and the centerline of the water supply inlet is 4-3/4". The Adjustable Tailpiece allows for a variance of ± 1/2" from this nominal dimension.

Item | Description | Order No.
--- | --- | ---
1A | Tailpiece Removal Bar | SO1232
1 | Coupling Nut only, chrome plated | SO1237
2 | Locking Ring only | SO1253
3 | O-Ring only | SO1260
4 | 2-1/16" tailpiece assembly (items 2, 3 & 4) | SO1240
4 | 3-1/16" tailpiece assembly (items 2, 3 & 4) | SO1245
4 | 4-1/16" tailpiece assembly (items 2, 3 & 4) | SO1246
4 | 5-1/16" tailpiece assembly (items 2, 3 & 4) | SO1247

Easily Remove Sloan Tailpieces!
Sloan Adjustable and Ground Joint Tailpieces are assembled into the Valve Body using a pipe thread. Significant force is used to drive the Tailpiece into the Valve Body. As such, removal of the old Tailpiece may be difficult. For replacement, we recommend using the H-530 Tailpiece Removal Bar.

- Remove the Flushometer cover and interior parts.
- Secure the Tailpiece Removal Bar vertically in a vise. Place the Flushometer Tailpiece over the Bar. The cast lugs inside the Tailpiece will catch on the Bar.
- Insert a length of 3/4" pipe into the barrel of the Valve Body.
- Unscrew Tailpiece from Valve Body and assemble the new Tailpiece into the Valve Body in the reverse manner.
- Use Teflon tape (or pipe sealant) on Tailpiece pipe threads.
- Ensure that both the Coupling and the Locking Ring (Adjustable Tailpiece only) are on the Tailpiece before tightening the assembly.
- Do NOT use sealant on the first few threads of the Tailpiece.

Sloan Crown & Naval Flush Valves

CROWN and NAVAL Flush Valves for Toilets and Urinals

Select from 3.5 gallons per flush and 1.6 gpf models. 1.5” bottom connection to toilet; 1” pipe supply line.

Select from 3/4”, 1-1/4” and 1-1/2” top spud connections for urinals (3/4” or 1-1/4”) and toilets (1-1/2”). Order valves that flush 1.6, 1.0 and 0.5 gallon per flush. For harsh water conditions.

FEATURES
Quiet, Exposed, Piston Type, Chrome Plated Urinal Flushometer with the following features:
■ Fixed Volume Piston with Filtered O-ring Bypass
■ ADA Compliant Metal Oscillating Non-Hold-Open Handle with Triple Seal Handle Packing
■ Locking Vandal Resistant Stop Cap
■ Adjustable Tailpiece
■ High Back Pressure Vacuum Breaker Flush Connection with One-piece Bottom Hex Coupling Nut
■ Sweat Solder Adapter with Cover Tube and Cast Set Screw Wall Flange
■ High Copper, Low Zinc Brass Castings for Dezincification Resistance
■ Valve designed to accept Low and Ultra-Low Consumption Pistons only to ensure Water Conservation
■ Non-Hold-Open Handle, Fixed Metering Bypass and No External Volume Adjustment to Ensure Water Conservation
■ Handle Packing, Main Seat, Stop Seat and Vacuum Breaker to be molded from PERMEX™ Rubber Compound for Chloramine Resistance

Model 111, 1.6 gallons per flush, 1-1/2” top toilet spud connection, 1” water supply
Model 186, 1.0 gallons per flush, 3/4” top urinal spud connection, 3/4” water supply
Model 180, 1.0 gallons per flush, 1-1/4” top urinal spud connection, 1” water supply

NAVAL Toilet Flush Valves
Model 110, Adjust from 1.5 to 7.0 gallons per flush, 1-1/2” top spud connection, 1” water supply
Model 111, Adjust from 1.5 to 7.0 gallons per flush, 1-1/2” top spud connection, 1” water supply

NAVAL Urinal Flush Valves
Model 186, Adjust from .5 to 3.0 gallons per flush, 3/4” spud connection, 3/4” water supply
Model 180, Adjust from .5 to 3.0 gallons per flush, 1-1/4” spud connection, 1” water supply

FEATURES
■ Gallons per flush adjustable on all valves below: 0.5 gpf to 3.0 gpf
■ Quiet, Exposed, Adjustable Piston Type, Chrome Plated Urinal Flushometer with the following features:
■ ADA Compliant Metal Oscillating Non-Hold-Open Handle
■ Self-cleaning Xpelor® Bypass
■ Vandal Resistant Stop Cap
■ Adjustable Tailpiece
■ Vacuum Breaker Flush Connection
■ Stamped Wall Flange
■ Ultra High Copper, Low Zinc Brass Castings for Dezincification and Salt Water Resistance
■ Valve Packing, Stop Seat and Vacuum Breaker to be Molded from PERMEX™ Rubber Compound for Chloramine Resistance

Model 110 factory set to 3.5 gallons per flush; Model 111 factory set to 1.6 gallons per flush; Model 180 factory set to 1.5 gallons per flush. Gallons per flush adjustable on all valves.

Model 186, 1.0 gallons per flush, 3/4” spud connection, 3/4” water supply
Model 180, 1.0 gallons per flush, 1-1/4” spud connection, 1” water supply

Model 110, Adjust from 1.5 to 7.0 gallons per flush, 1-1/2” top spud connection, 1” water supply
Model 111, Adjust from 1.5 to 7.0 gallons per flush, 1-1/2” top spud connection, 1” water supply

Sloan “Old Style” Flush Valve Repair Parts

Repair Parts for
OLD STYLE
Sloan “Royal” Flush Valves
Manufactured until 1971

“Those were the days my friend!”
If you have Sloan Flush Valves this old it may be time to
retire that workhorse and simply buy a new model.
However, repair parts do remain available to fix these
“older” valves manufactured before 1971. Parts are
usually in-stock ready for same-day shipping.

Sloan Hydraulic & Push Button Flush Valves

Select the Push-Button Operation Style You Need!

**Series 600**
- Dual Filtered By-Pass Diaphragm, Handle Packing, Stop Seat and Vacuum Breaker to be molded from PERMEX™ rubber compound for Chloramine Resistance
- Metal Non-Hold-Open Push Button with a Triple Seal Handle Packing
- 1” I.P.S. Wheel Handle Bak-Chek™ Angle Stop
- Adjustable Tailpiece
- Elbow Flush Connection and Coupling for 1-1/2” NPT Back Inlet (for connection in the pipe chase - flush connection through the wall not provided by Sloan)
- Sweat Solder Adapter
- SPECIFY WALL THICKNESS WHEN ORDERING

**Series 900**
- Dual Filtered By-Pass Diaphragm valve for long-lasting durability.
- Metal Non-Hold-Open Push Button with a Triple Seal Handle Packing
- 1” I.P.S. Wheel Handle Bak-Chek™ Angle Stop
- Adjustable Tailpiece
- Elbow Flush Connection and Coupling for connection in the pipe chase (flush connection through the wall not provided by Sloan)
- Sweat Solder Adapter, and Exposed parts are Chrome Plated
- Premium vacuum breaker

### Sloan Hydraulic Push Button Actuators

#### Model HY-33-A
**Fixture Wall Push Button (PB) Assembly** for use with Sloan Series 900 Hydraulic Flushometer. Recommended for installation where access behind the wall is available. Also for use with Sloan Easy Access™ Wall Box.

**Specifications:**
- ADA Compliant Non-Hold-Open feature type Actuator
- Large diameter, Spring Loaded Button
- Wall Clamp and Threaded Rod for through the wall installation (for walls up to 8” (200 mm) thick) - Spacer provided for walls less than 2” (50 mm) thick
- Mounting fasteners for installation on Sloan Easy Access Wall Box
- Two 36” (914 mm) long flexible tubing for connection to Sloan Series 900 Hydraulic Flushometer

#### Model HY-49-A
**Metal Partition Push Button (PB) Assembly** for use with Sloan Series 900 Hydraulic Flushometer. Recommended for installation on 1” (25 mm) metal toilet stall partition.

**Specifications:**
- ADA Compliant Non-Hold-Open feature type Actuator
- Large diameter, Spring Loaded Button
- Mounting fasteners for installation on 1” (25 mm) thick metal toilet stall partition
- Two 36” (914 mm) long flexible tubing for connection to Sloan Series 900 Hydraulic Flushometer

#### Model HY-100-A
**Metal Button Fixture Wall Push Button (PB) Assembly** for use with Sloan Series 900 Hydraulic Flushometer. Recommended for installation on Stainless Steel Prison Fixtures and other locations where extreme vandalism is a concern. Requires access behind the wall for installation and servicing.

**Specifications:**
- ADA Compliant Non-Hold-Open feature type Actuator
- Spring Loaded, Metal Button
- Wall Clamp and Threaded Rod for through the wall installation (for walls up to 8” (200 mm) thick) - Spacer provided for walls less than 2” (50 mm) thick
- Two 36” (914 mm) long flexible tubing for connection to Sloan Series 900 Hydraulic Flushometer

#### Model HY-108-A
**Metal Button Panel Mount Push Button (PB) Assembly** for use with Sloan Series 900 Hydraulic Flushometer. Recommended for installation on Handicap and similar Stainless Steel Prison Fixtures where a front access panel is provided. Also for use with Sloan Easy Access™ Wall Box when used in locations where extreme vandalism is a concern. Requires access for installation and servicing.

**Specifications:**
- ADA Compliant Non-Hold-Open feature type Actuator
- Spring Loaded, Metal Button
- Two 36” (914 mm) long flexible tubing for connection to Sloan Series 900 Hydraulic Flushometer
